## WEF "2026 Global Risk Report": The world has officially entered the "era of competition"

CSRone / 2026-01-15

The World Economic Forum (WEF) released the "Global Risk Report 2026" on the 14th, pointing out that as global risks continue to increase in scale, interconnectedness, and diffusion rate, 2026 marks the arrival of an "era of competition". Global stability is facing unprecedented challenges ...

## OSE Year-End Celebration Concludes Successfully, Launching the 55th Anniversary Series Events

OSE has successfully concluded its annual year-end celebration. Reflecting our core values of employee care and operational stability, the event featured flexible arrangements and a company-wide live stream. This approach ensured that team members across different sites and shifts could participate without disrupting daily operations, demonstrating our management philosophy of balancing a people-oriented culture with steady business execution.

As the year-end festivities come to a close, this spirit of unity will transition into a significant milestone: OSE's 55th Anniversary. Fifty-five years of dedication symbolize our resilience and steady growth in a dynamic global environment. The hard work of every employee remains the driving force that has sustained our progress for over half a century. To honor this journey, we are planning a series of year-long activities focused on brand values, social engagement, and employee interaction, which will be unveiled in phases. Through enhanced internal communication, we look forward to witnessing our long-term commitment to talent development and social responsibility alongside our pursuit of excellence.

Looking ahead, OSE will continue to strengthen our three core pillars: Quality, Service, and Talent, further solidifying the foundation of trust with our clients. Beyond providing professional packaging and manufacturing services, we aim to use the 55th Anniversary series to showcase the depth of our long-term management and our strategic roadmap for the future to all employees and partners.

## ESG Info-TCFD

(Task Force on Climate-related Financial Disclosures)

The Task Force on Climate-Related Financial Disclosures (TCFD) is a climate-related financial disclosure standard established by the International Financial Stability Board (FSB) in 2015 in response to climate change and the Paris Agreement. The intention is to provide professional information disclosure advice on climate change risks and opportunities, ensure that climate issues can be considered in business and investment decisions, and further assist investors, decision-makers, and other stakeholders to understand the significant risks of the organization and more accurately assess climate-related risks, opportunities, and financial impacts.
